

Jesper Sjöström

FRONT END DEVELOPER

Profile

Junior Web Developer specializing in front end development.

3+ Years of experience studying programming in HTML, CSS, Javascript and the most popular frameworks such as React.

Work experiences

Worker & Frontend Developer, Cafe & Bistro Kerma, Kuopio

NOVEMBER 2023 – APRIL 2024

At Café & Bistro Kerma, I was an all-around worker responsible for a wide range of tasks including inventory management, serving food, cooking, and working at the bar.

I designed and developed the website, creating a user-friendly platform, in addition to that I also crafted a simple, easily recognizable logotype.

Internships

Frontend Developer, Vello, Helsinki

NOVEMBER 2022 – APRIL 2023

My internship at Vello, where I worked in a frontend development environment, was a highly valuable experience. It provided me with great insight into what it's like to work within a company and a team, and I learned a tremendous amount from this opportunity.

Webdeveloper, Östra Gymnasiet, Stockholm

FEBRUARY 2021 – MAY 2021

Developed a website with both back- and frontend.

The content of the website was a digital event containing exhibitors and stands for people to advertise their school and courses.

It was made with Amazon AWS, HTML, CSS, JS and three.js

Education

Front End Developer, KYH Yrkeshögskola, Stockholm

AUGUST 2021 – MAY 2023

I gained proficiency in building websites at a professional level, acquiring advanced UI/UX and programming skills in HTML, CSS, JavaScript, and React, along with some more knowledge of backend development.

High school engineer, Östra Gymnasiet, Stockholm

AUGUST 2020 – JUNE 2021

High school engineering degree with specialization in software design and both back-end and front-end.

Physics 1A, MA2c, Komvux, Stockholm

AUGUST 2019 – APRIL 2020

Read physics and mathematics to be able to apply for the fourth technical year.

Technology program, Huddinge Gymnasium, Stockholm

AUGUST 2016 – JUNE 2019

Three years with technical education with specialization in information and media technology.
